About Quislex

QuisLex is an award-winning legal services provider that was founded almost 20 years ago on the idea that even complex and intricate legal services can (and should) be delivered more efficiently by introducing scalable, repeatable, well-managed processes to legal workflows.

Our full-time highly trained attorneys, process experts, legal technologists, statisticians, and linguists work closely with our clients to reduce cost, mitigate risk, and maximize efficiency. QuisLex is regularly acknowledged as a leader in the legal services industry, and is proud to be recognized with numerous awards for excellence. QuisLex is a nationally certified Minority Business Enterprise.

QuisLex's overarching philosophy in delivering litigation and corporate services is to maintain an intense focus on the success of our clients by proactively helping them find ways to complete projects more efficiently and at a lower cost. We form true partnerships with our clients and positively impact their businesses. Our clients reap the long-term benefits of our continuous investments in people, processes, and technology.

In shaping our corporate culture, we have paired legal department and law firm best practices with a highly talented, motivated work force with process expertise and technological savvy focused on long-term growth and strong client management.

Our ability to deliver high quality results in complex, high-volume work is made possible through processdriven efficiency, strong quality controls, and effective use of technology. This innovative alignment of human capital, process discipline, and technology creates opportunities that extend beyond cost and risk mitigation, and enables our clients to pursue new initiatives that support both legal and business strategies, and directly impact the bottom line.

QuisLex ensures that you can meet your objectives by bringing the following distinct advantages:

- full-time permanent employees with welldefined career paths ensuring continuity and knowledge retention
- integrated technology, independent quality processes and data analytics
- · capacity and expertise that scale to need
- flexible resourcing models based on client needs, with the ability to support many time zones in real time
- management of complex workflows on a global scale
- leadership with global legal department and big law backgrounds intimately involved in client management and project execution

We are also uniquely focused on quality. Our patented Legal Quality Management System, based on Lean Six Sigma discipline, improves quality, reduces risk, and provides increased insights through data analytics into budget, project management, and outcomes.

"The common demominator across all our services is a non-negotiable requirement for excellence." Ram Vasudevan, CEO

How We Get It Done

High Performance Professionals

With more than 1,000 highly-trained, full-time permanent employees, QuisLex offers an unmatched combination of on-demand expertise and scale. We place significant focus on developing and maintaining the best legal operations workforce through rigorous and comprehensive training.

- Formal mentoring programs
- Highly competitive merit-based compensation packages with comprehensive benefits
- Attractive career paths
- Generous employee perks and awards programs

Identifying the Right Technologies

QuisLex identifies, tests, and integrates market leading technologies into each of our managed services according to individual client requirements. Whether it is the latest cutting-edge AI application or an industry stalwart, our team of technologists, programmers, statisticians, analysts, and project managers understand how to maximize their benefits. We can help demystify these technologies, sort through facts and fictions, and assess the risks, costs, and benefits of taking on a new legal technology initiativ.e

Industry Leading Process Rigor

We accomplish your objectives with our Legal Quality Management System (an ISO 9001:2015 certified process that applies Six Sigma-based methodologies to deliver quality, consistency, and effectiveness at both the project and organizational level) that delivers predictabe outcomes.

Uncompromising Data Security

Data security and confidentiality are of paramount importance to QuisLex. In fact, we were the first alternative legal services provider to be certified under the ISO 27001:2013, SSAE 16/ ISAE 3402 (SOC 1), and AT101 (SOC2) standards for data security.

We're here to help you

MARK WILCOX (Global Vice President, Business Development)

Mark is a veteran "Customer First" sales leader with 15 years' experience as a sales executive in the legal software and services industry. Prior to joining QuisLex, he spent 10 years running sales in the eDiscovery space and 3 years in legal and cybersecurity compliance space. Mark has over 30 years of sales leadership success across multiple industries and is skilled at applying innovation and process excellence across industry lines while engaging and providing value to customers. He received his BS in Corporate Communication from Oregon State University and has taught sales training and public speaking courses through Dale Carnegie and Miller Heiman.
